Warranty Information

Please read all of the information carefully and contact your distributor or supplier with any issues.

Parts List

Important: Before you begin please count and inspect all pieces.

- 1- Event Cooler (A)
- 4- Caster Wheels (B)

Instructions

Step 1

Tip cooler on it's side. Take one of the caster wheels and insert the metal stem into the white washer on the bottom of the cooler.

Repeat for the other 3 other casters.

Step 2

Set cooler upright and fill with ice and product.

Storage Instructions

Wipe the inside dry and store in cool, dry place, away from direct sunlight.

Care Instructions

Wipe clean with damp cloth.

Warranty Information

All products are designed to provide the user with a cost-effective and durable product. Standard warranty is a 'one year parts and labor' warranty which warrants product against defects in material and workmanship. It does not cover damage due to accidents, abuse, or normal wear and tear. Products found to be defective will be replaced or repaired at factory's discretion.

Event Cooler Replacement Graphic Wrap

Product Specifications

Viewable Graphic Size : 64.625"W x 32" H

Product Parts

1 - Replacement graphic for existing Event Cooler

Graphic Replacement Install

Step 1

Make sure cap is off drain spout and then carefully remove existing graphic (if one is present) by removing the 4 screws and then pulling along edge. Take care to save the screws.

Step 2

If replacement graphic has a pre-cut hole for the drain spout proceed to step 3.

If replacement graphic does not have a pre-cut hole place it on a clean flat surface and lay old graphic on top of replacement graphic. Manually cut out the spout hole.

Step 3

Using the hole as a guide place the graphic onto the cooler. Take care to weave the drain cap through the hole.

Step 4

Wrap graphic around the cooler. Align top and bottom edges of replacement graphic to cooler and overlap the ends. Remove backing from double-faced tape Press firmly to secure wrap to itself.

Step 3

Using existing screws, screw graphic onto the cooler. Screw placement does not need to match existing holes.

Approximate Vertical Screw Positioning:

First Screw: 1" down from top

Second Screw: 10" down from top

Third Screw: 10" up from bottom

Fourth Screw: 1" up from bottom

All screws placed 1/4" over from graphic wrap edge.
