Please be sure to include the 1/2" bleed at the top & 11" bleed at the bottom.

Graphics printed on 8 oz. Oxford using the dye-sublimation printing process will need an extra 1" bleed around the perimeter.

Refer to related graphic template for more information.

WARNING: Always attach graphic to base and top rail before removing the locking pin. After fitting, the graphic should be left for 24 hours before use to ensure the adhesive bonds sufficiently. Opening the base will void the product warranty.

Add lights to any of our banner stands. LV4 and L9B are recommended.
