

# Igniter Light Box

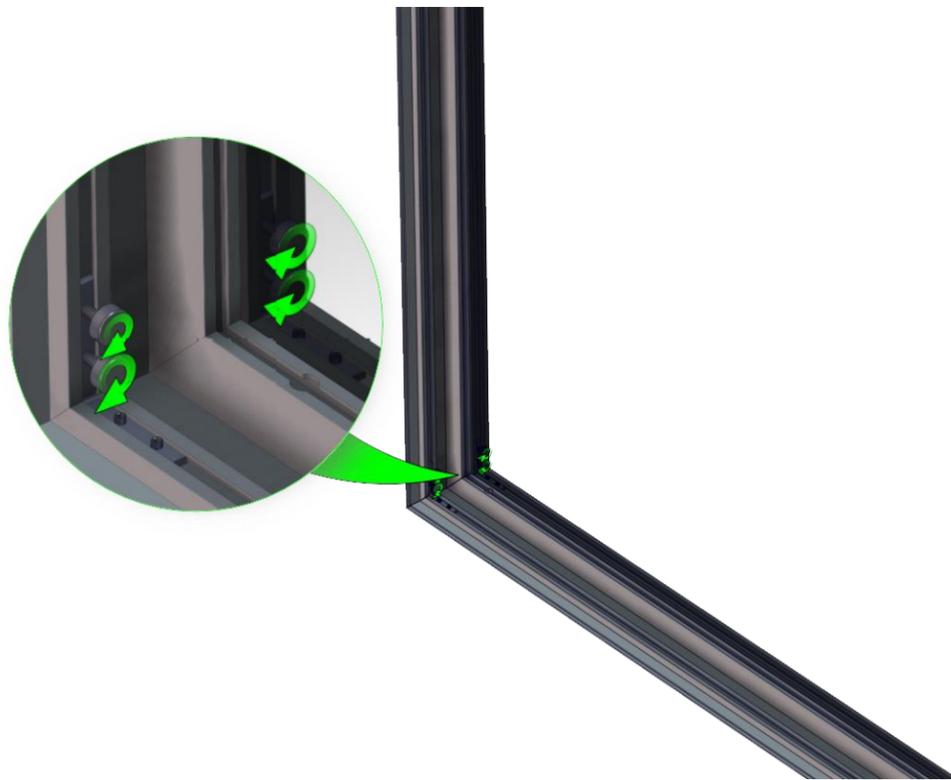

1. Begin with the lower extrusion signified by the holes for the foot bolts as highlighted.

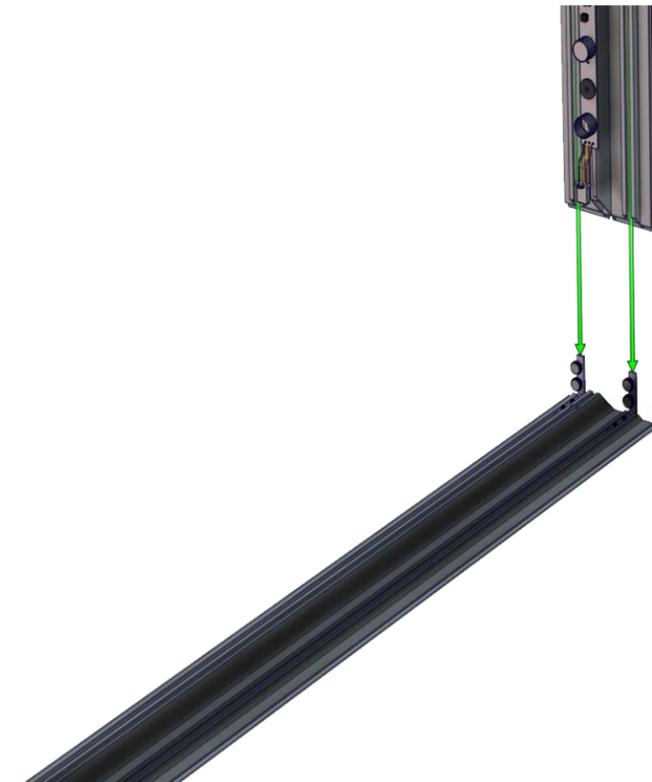

3. To secure, tighten all thumb screws until tight. (x4)

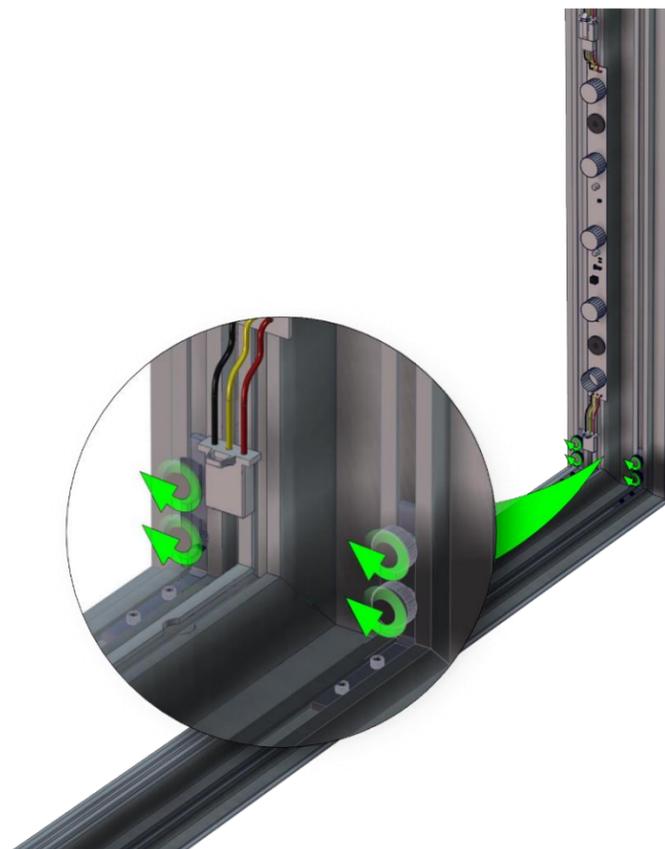

2. Next, take the 8' vertical section with **no** lights, and install over brackets as shown.

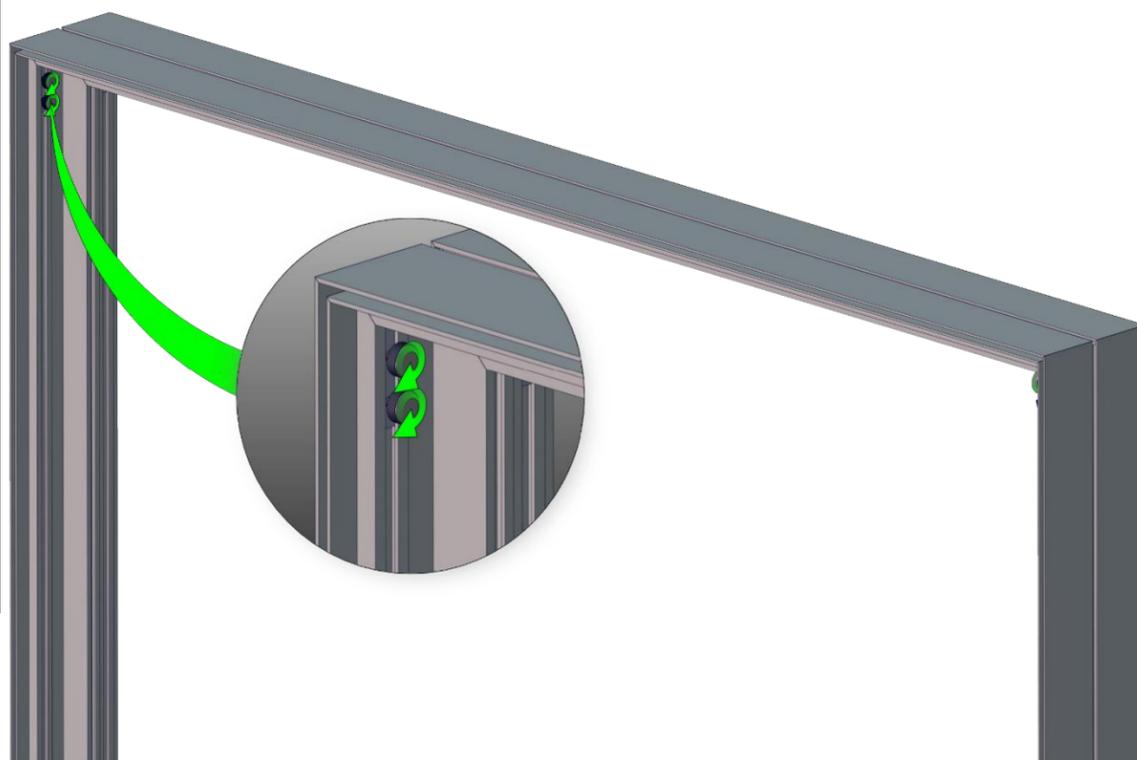

4. Next step is to take the 8' vertical section **with** lights and install it over the brackets as shown.

**5.** To secure, tighten all thumb screws until tight.  
(x4)

**7.** To secure, tighten all thumb screws until tight.  
(x4)

**6.** Next is the upper section. Install over both sets of brackets as shown.

**8.** Finally, install the feet using the provided hardware.

(x2) 5/16" Bolt  
(x2) Washer  
(x2) Wing Nuts
