Banner Stands

use side by side for a large dynamic back wall

Add banner stands to an existing display to announce a new product or sales promotion. Banner stands are economical and easy to setup.

- All banner stands include carry bag.
- Includes printed graphic, (except hardware only orders).
- Most stands have a light option.

DIMENSIONS SHOWN ARE THE VIEWABLE GRAPHIC AREA

- Raindrop™ Retractable Banner Stand - RBSRD34V (Silver only)
- Economy Retractable Banner Stand - RBS34EV (Silver only)
- Two Sided Retractable Banner Stand - RBS34-2SV (Silver only)

*This stand is not compatible with lights
Strong, lightweight aluminum construction.

**Premium Retractable Banner Stand 34” (Silver or Black)**

Create a one of a kind Retail Display with our high-definition, dye-sublimation graphics. Perfect for any trade show, sales promotion, or event, these eye catching displays are sure to attract customers.

Optional magnetic shelves and waterfall attachments to display products.
DYE-SUBLIMATION FABRIC FRAMES

Silicone-edged fabric graphics make changing images simple. Just push the silicone edge into the groove on the frame and the new image is stretched securely into place.

Sleek, modern profile  •  Custom frames available  •  Full-color seamless, dye-sublimation fabric

Edgeless frame leaves more surface for graphic

AVAILABLE IN SINGLE OR DOUBLE SIDED
GRAPHIC SLIPS EASILY INTO FRAME
SLIM/EASY WALL MOUNT BRACKET
METAL PHOTO PRINTS
Fusion Print Technology for Brilliant Colors & Crisp Details

Our metal picture prints are fade, moisture, stain and scratch resistant. Using a dye-sublimation process, the high-definition image is fused into the durable, protective coating on the metal which can last for generations. Our metal picture prints can be used to showcase your brand, fine art or photos in any trade show, retail, home or office setting.

Available in sizes 8x10 to 23x47 - See website for more details
Different Backing Choices

- Printed on 1.2mm thick aluminum metal.
- Coating is a high gloss white that provides true whites and blacks.
- High-definition dye-sublimation print.
- Metal easel with attached wall hanging clip included.
- Fade, stain, moisture and scratch resistant.
- Shipped in cardboard box with wooden backing.

SEG Fabric Pop Up Displays

Stand out at your next trade show with our SEG pop-up display stands. Choose from LED back lit or unlit displays. The expanding frame allows for an easy set-up, and the included canvas carry bag makes transport effortless.

Our dye-sublimation process creates HD, photo quality fabric graphics from your custom artwork. The ink becomes part of the machine washable fabric which enables you to keep your display fresh year after year, protecting your investment and saving your valuable marketing dollars.

This backlit advertising display package includes:
- Pop-up frame
- Leveling Feet
- Full color seamless front fabric graphic print
- Full color end caps
- Black carrying bag
- LED Lights

HOW TO PREPARE GRAPHIC FILES

TEMPLATES - SIZE
Layout guidelines and templates can be downloaded from each of the product pages on our website. Make your graphic dimensions match the product you are purchasing. Your image should be to size of your product at 72-150 dpi.

BLEEDS: Not all products require bleeds; check guidelines for specific product requirements.

RESOLUTION - FILE TYPES
Final size files are only required to be 72–150 dpi.
You can view your file in Photoshop at 100% to see how it will look when printed.
If designing to reduced scale, adjust dpi accordingly.
We accept files from the following programs and formats: Adobe Photoshop and Adobe Illustrator: .ai, .psd, .tiff, .eps and high resolution jpg.

COLOR
Your print file must be in CMYK format.
Colors can look drastically different when converted from RGB. We can color match with a provided PMS code and editable files.
However, we can only guarantee color accuracy when a printed proof is ordered and approved.

VECTOR IMAGE
Vector graphics use points, lines and curves to create an image. It’s based on mathematical formulas and unlike bitmaps can be enlarged to any size, any resolution, without losing detail.

BITMAP - RASTER IMAGE
Bitmaps images are made up entirely of pixels. When enlarging a bitmap image, additional pixels are added to create this new size.
The “new” pixels pick up and average colors from neighboring pixels in an attempt to create a new color that will blend between areas.
This is where the overall image becomes soft and blurry and sharp defined edges develop noticeable jagged pixelated edges.

PRODUCTION TIME
All Production times are based on graphic approval and full payment.
Production will start the day following graphic approval.
